ACT 158 of 2018

Effective for ALL Programs and Graduating Classes

Act 158 of 2018 (Act 158) is a signed law which provides alternatives to Pennsylvania's statewide requirement of attaining proficiency on the three end-of-course Keystone Exams (Algebra I, Literature, and Biology) for a student to achieve statewide graduation requirements.

Effective with the graduating class of 2023, and beyond, students have the option to demonstrate postsecondary preparedness through one of four additional pathways that more fully illustrate college, career, and community readiness. Keystone Exams will continue as the statewide assessment Pennsylvania uses to comply with accountability requirements set forth in the federal Every Student Succeeds Act (ESSA). Although students will no longer be required to achieve proficiency on the Keystone Exams to meet the statewide graduation requirements, students must take the Keystone Exam for purposes of federal accountability. Failure to do so will affect a Local Education Agency (LEA) and school's participation rate (Commonwealth of Pennsylvania, 2022).
